Hi Robert,

I made some corrections and comments to the document as a google doc, so we could all make edits without worrying about version control: https://docs.google.com/document/d/1OiOjXAYJtSVgjXpYw0z47Opirb4lcw9qkJEO_5lWhY/edit?usp=sharingCheers,

Dear AVS faculty:

Thank you for meeting last week.

I have drafted a position justification for the AVS lecturer according to the format passed down to us from Winslow Hall, and have incorporated suggested edits based on my notes from the meeting.

Please review today if possible. I hope to send to the full SFA faculty later tonight, and then forward to the Dean tomorrow evening. Unfortunately we are on a very tight timeline.

Best wishes, and thank you for your help.

Robert
