3-1

The large number "3" to the far left indicates the horse's saddlepath, betting and post position number. The smaller numbers below, in this case 3-1, are the morning line odds of this horse. This is the track handicapper's opinion of the probable closing odds for this horse. The word "WHITE" indicates the horse's saddlecloth color. The space below the color, which in this example is blank, is reserved for two different reasons. The first and most common is the horse's claiming price. If the horse were in a \$3,000 claiming race, then the number in this space would be either 3000 or greater, depending on whether the horse was entitled to an additional allowance for age or sex. The second use for this space occurs when two horses are coupled in the wagering. In this unusual case both horses will share a common saddlecloth number but will have different post positions, which will be indicated in this space.

Moving to the right, the top line in capital letters indicates the horse's driver in this race, Heath Campbell, followed by his age in parentheses, his registered driver's colors and his racing statistics in the following order: number of starts for the year, number of wins, number of second place finishes, number of third place finishes and UDR (Universal Driver Rating), which is similar to a batting average in baseball where .300 or better is excellent. Below the driver's information is the horse's name, indicated in the largest print. The symbol (L) after the horse's name indicates he will use the medication Lasix for this race. The line directly underneath the horse's name shows his dollar earnings for his most recent five races.

Moving to the three lines in the center, the topmost line names the horse's trainer followed by the trainer's racing statistics for the year. The middle line contains the horse's personal data in the following order: color, sex, age, its father or sire, its mother or dam, and its dam's sire or maternal grandfather. The bottom line lists the horse's registered owner or lessee, and the domicile of record.

Four lines appear at the far right. The horse's racing information in summary form appears on the top two lines, one for this year to date and one for the prior year. After the total purse dollars the horse has earned for the period, its fastest winning time and the abbreviation for the track where the win occurred is listed. The third line shows the horse's lifetime record and it's age when and where it raced its fastest winning mile. The bottom line lists the identity and location of the horse's breeding farm.

These lines reveal the horse's past performance lines. The information is read from left to right. Each line indicates one race. We will use the top line, which is always the most recent race, for this example. This first group of figures, 7-22-07, is the date of the race. The next section "9 Bang" indicates the race number and the location of the track where the race took place. The next group of figures, 20000ft 76, show the purse the horse raced for (\$20,000), the track condition for that race, ft, which means "fast", and the temperature, 76 degrees. The letter "L" which follows indicated that the horse raced on the medication lasix. The next item shows the type of race the horse was in. Here the horse was in a class for invitational horses, meaning the very top class. The next digit "1" indicates that the distance for the race was one mile, or two times around our half mile track. Most all races at Bangor are for a 1 mile distance. The next series of numbers "27.4 56.3 etc." are the times the leading horse passed the quarter pole, half mile pole, three-quarter pole and the finish line. Using our example the leader reached the quarter pole in 27.4 seconds, the half in 56.3 seconds, the three-quarters in 1:24.2 and the winning time of 1:52.4.

The next series of numbers shows the horse's individual position at various stages of the race. The first number, 3, is the horse's post or starting position. The next number is the horse's position at the quarter pole, in this case first. The smaller number, in this case also 1, shows the number of lengths he was ahead of the second place horse. The following numbers, 1-1-2-1, show the horse's position at the half, three-quarters, head of stretch, and finish. Any finish that is first-second-third is printed in bold to draw attention to a good effort. After the blank space, the first number to appear is the horse's time for the final quarter of the race, followed by the horse's actual race time. In this example, the horse CHEWY GROSS won in 1:52.4 which is the fastest race mile ever recorded in the state of Maine heading into this season.

The next number, 3.00, indicates the horse's pari-mutuel odds determined by the betting public and expressed as a comparison to \$1.00. If this horse had been the favorite in the race the number 3.00 would have been accompanied by an asterisk. The final information contained on the race line shows, in the following order, the name of the driver, trainer, and first three finishers in the race.

ALL: ABOUT WAGERING

WHAT IS PARI-MUTUEL WAGERING?... Originated by a Frenchman, Pierre Oller, the word means "among ourselves". Bangor Raceway has no interest in which horses win or lose, but acts only as an agent. It only holds the money wagered until the finish of the race and pays the winning ticket holders the proper amount called for by the amount of tickets sold.

HOW ARE ODDS DETERMINED?... Odds are the indication of the popularity of a given horse in comparison with others in the race. Odds are figured by dividing the amount wagered on a given horse into the total amount wagered, less an amount deducted by the Raceway and state by law. A horse with the most money wagered on him will have the smaller odds and be the favorite. Horses with the smallest amount of backing are "long shots".

HOW ARE PAYOFFS PRICES FIGURED?... The win price is the result of dividing the amount of money wagered on the winner into the total win pool, less lawful deductions. The place pool is divided between two horses and each half is apportioned to ticket holders in proportion to the number of valid tickets held. The show pool is split into three divisions and apportioned according to the number of valid tickets.

HOW DO I PLACE A BET?... To make a wager, go to one of the mutuel (betting) windows located throughout the Raceway. State the following:

- 1. AMOUNT OF BET.
- 2. TYPE OF BET.
- 3. PROGRAM NUMBER OF THE HORSE.
- 4 RACE NUMBER IF OTHER THAN CURRENT RACE.

For example: \$2 TO WIN ON #5.

Always remember to check that you have received the correct tickets and change BEFORE leaving the mutuel window, and hold all tickets until the race has been declared official.

WHAT TYPE OF WAGERS ARE AVAILABLE?.. WIN = You collect win money if you bet the horse that finishes first. LACE = You collect place money if you bet the horse that finishes first or second. SHOW = You collect show money if you bet the horse that finishes first, second or third. DAILY DOUBLES = To win the Daily Double, you must combine the winner of the FIRST designated race and the winner of the SECOND designated race. QUINELA = To win a quinela, you must select the horses that finish first and second in a race, in any order, on a single ticket. EXACTA = To win the exacta, you select the horses that finish first and second in a race in exact order. TRIFECTA = To win a trifecta, you must pick the first three horses to cross the finish line - in their EXACT ORDER of finish. Be sure to state your bet in that same order; for example - \$2 TRIFECTA; No. 6, No.1, No. 4 - If the actual finish is 6-1-4, you are a winner. PICK FIVE = To win the Pick Five, you must select the horses that finish first in the designated five races. If no one correctly selects the five winners, the betting pool carries over to the next racing date.

HOW TO BOX AND WHEEL YOUR HORSE

BOX TICKETS. The term "Box" is used when you make a wager on two or more horses in one race and wish to cover their every possible winning order of finish. Betting a "Box" is no more than making multiple wagers on one ticket. *PLEASE NOTE* that when you make a "\$1.00 Box or Wheel", you are eligible for only *one-half* of the posted pay-off amounts since all posted pay-offs refer to \$2.00 denomination winning tickets.

QUINIELA BOX TICKETS. Choose 1st and 2nd finishers in any order. You may find an evenly matched race in which 3 or more horses look like possible Quiniela winners. Let's say your picks are 4-5-8 and you want to cover all possible winning combinations. At the window you would say "\$2.00 Quiniela Box 4-5-8." You will have purchased a ticket for \$6.00 that covers 3 combinations of finish positions 4-5, 4-8 and 5-8. See below for three or more box combinations.

COMBINATIONS	\$2.00 BOX	\$3.00 BOX
To box 3 horses (3 combinations)	\$6.00	\$ 9.00
To box 4 horses (6 combinations)	\$12.00	\$18.00
To box 5 horses (10 combinations)	\$20.00	\$30.00
To box 6 horses (15 combinations)	\$30.00	\$45.00
To box 7 horses (21 combinatons)	\$42.00	\$ 68.00
To box 8 horses (28 combinations)	\$ 56.00	\$84.00

EXACTA BOX TICKETS. Choose 1st and 2nd finishers in exact order. Let's say you wish to box 1-2-8 to cover all possible combinations. At the window you would say: "\$2.00 Exacta Box 1-2-8." You will have purchased a ticket for \$12.00 that covers 6 combinations of finish positions 1-2, 1-8, 2-1, 2-8, 8-1 and 8-2.

\$2.00 BOX	\$3.00 BOX
\$4.00	\$ 6.00

TRIFECTA BOX TICKETS. Choose 1st, 2nd, and 3rd finish positions in exact order. Let's go to another race and play the Trifecta Box. Suppose that you like 4 horses (2-3-6-8) in this race. This means that your box bet must be for 24 possible winning combinations. A \$2.00 bet on each combination is \$48.00. You will tell the clerk: "\$2.00 Trifecta Box 2-3-6-8."

COMBINATIONS	\$1.00 BOX	\$2.00 BOX	\$3.00 BOX	
To box 3 horses (6 combinations)	\$6.00	\$ 12.00	\$18.00	
To box 4 horses (24 combinations)	\$24.00	\$48.00	\$72.00	
To box 5 horses (60 combinations)	\$60.00	\$120.00	\$180.00

To box 8 horses (336 combinations)	\$336.00	\$672.00	\$1,008.00	

TRIFECTA KEY WHEEL TICKETS. Choose I horse for the win, place, or show position (your TRIFECTA KEY HORSE.) This horse will be combined with the rest of the field in you wager. If your horse finishes in the position selected you have a winning Trifecta ticket.

COMBINATIONS	\$1.00 WHEEL	\$2.00 WHEEL	\$3.00 WHEEL
To key 1 horse with 2 others	\$2.00	\$4.00	\$ 6.00
To key 1 horse with 3 others	\$6.00	\$12.00	\$18.00
To key 1 horse with 4 others	\$12.00	\$24.00	\$36.00
To key 1 horse with 5 others	\$20.00	\$40.00	\$60.00
To key 1 horse with 6 others	\$30.00	\$60.00	\$90.00
To key 1 horse with 7 others	\$42.00	\$84.00	\$126.00

DAILY DOUBLE WHEEL TICKETS. The Daily Double Wheel means that you have selected one horse in either the first or second half of a Daily Double and wish to combine that horse with all of the horses in the other half. An example would be a \$2.00 Daily Double Wheel combining the number 2 horse in the first half with all 8 horses in the second half. The total cost is \$16.00.
